General information

What is the DTC?

The disability tax credit (DTC) is a non-refundable tax credit that helps persons with disabilities or their supporting persons reduce the amount of income tax they may have to pay. The disability amount may be claimed once the person with a disability is eligible for the DTC. This amount includes a supplement for persons under 18 years of age at the end of the year. Being eligible for this credit may open the door to other programs.

For more information, go to cra.gc.ca/dtc or see Guide RC4064, *Disability-Related Information*.

Are you eligible?

You are eligible for the DTC only if we approve your application. On this form, a medical practitioner has to indicate and certify that you have a severe and prolonged impairment and must describe its effects.

To find out if you **may be eligible** for the DTC, fill out the self-assessment questionnaire in Guide RC4064, *Disability-Related Information*. If we have already told you that you are eligible, do not send another form unless the previous period of approval has ended or if we tell you that we need one. **You should tell us if your medical condition improves.**

If you receive Canada Pension Plan or Quebec Pension Plan disability benefits, workers' compensation benefits, or other types of disability or insurance benefits, it **does not** necessarily mean you are eligible for the DTC. These programs have other purposes and different criteria, such as an individual's inability to work.

You can send the form at any time during the year. By sending your form before you file your income tax and benefit return, you may prevent a delay in your assessment. We will review your form before we assess your return. Keep a copy for your records.

Fees – You are responsible for any fees that the medical practitioner charges to fill out this form or to give us more information. However, you may be able to claim these fees as medical expenses on line 330 or line 331 of your income tax and benefit return.

What happens after you send Form T2201?

After we receive Form T2201, we will review your application. We will then send you a notice of determination to inform you of our decision. Our decision is based on the information given by the medical practitioner. If your application is denied, we will explain why on the notice of determination. For more information, see Guide RC4064, *Disability-Related Information*, or go to cra.gc.ca/dtc.
